

DIGITAL DECODING TYPE-C HEADPHONES 1CT

About the product

Enjoy premium sound quality with the Digital Decoding Type-C Headphones, engineered for modern devices without a headphone jack. Featuring a built-in digital decoding chip, these in-ear headphones deliver crisp audio, deep bass, and clear calls—perfect for music lovers and on-the-go users.

- Type-C connectivity for USB-C smartphones and tablets
- Built-in digital decoding chip for enhanced sound clarity
- In-line microphone and remote for calls and media control
- Comfortable, ergonomic design for extended listening
- Durable and tangle-resistant cable

Digital Decoding Type-C Headphones - smart sound for smarter devices.
