

RAW METAL TRAY SMALL - SMOKEY FOREST 1CT

About the product

- When the Smokey Forest Rolling Tray was first launched, RAW planted 1 tree for every tray sold and quickly reached the goal of 5,000 trees! This rolling tray is special because it represents the natural connection of smoke to mother nature.

- This beautiful & mellow scenic smokey 'trees' rolling tray is a definite attention grabber and conversation piece, and makes for a great gift too!
- RAW's metal rolling trays are purpose built. The thick metal is resistant to bending and warping and the smooth, curved edges stop any stray material from escaping the tray or getting stuck in corners or creases.
- The RAW Small Tray is a compact size that won't take up too much space but still gives you a more than sufficient surface to roll over and store all your supplies like rolling papers, tips, and roller to keep them all together.
- Measures at 27.5 x 17.5 centimeters or 11 x 7 inches.
