

USB-C TO IPHONE 8PIN LIGHTING CABLE 1 CT

About the product

- **QUALITY & Unparalleled Durability:** Excellent quality-multiple protection - over-current, short-circuit and over-temperature which protects your device. Original 8 Pin connector with a lightning end. The anodized connectors ensure superior functionality under heavy usage. Designed to fit into all cases (including Lifeproof and Otterbox Cases).

- **SIZE:** Compact and convenient usb-based power adapter to charge your iPhone with lightning connector at home. It fits in your pocket too. Featuring a compact design, this power adapter gives fast, efficient charging.
- **INCREDIBLE QUALITY:** The double shielded coat remains clean and white even after long usage. Holds over 12,000 bends in lab tests which is 12 times longer than original device cables. Good Charging Speeds Most Powerful - Charge any USB powered devices at top speed continuously.
- **COMPATIBILITY:** Designed to charge most handheld devices and Smartphone's.
