

DJEEP CLASSIC LIGHTERS BLISTER DJEEP10 24CT/ PACK

About the product

- Child resistant mechanism. The system consists of a safety blade on the file and necessitates a harder pushing action. Then one should press on the thumb plate to activate the lighting mechanism. It's a triple action movement. Extra large wind guard. More comfortable to use outdoors.

- Adjustable flame. The flame height can be adjusted to your needs, thanks to the adjustable flame system, whatever the environment and heat. This ensures a better comfort, optimized security and gas economy.
- The wheel is made of the highest quality material and ensures that the lighter works every time.
