

RAW 300'S ROLLING PAPERS 1 1/4 - 20CT/ DISPLAY

About the product

RAW Classic is chlorine free and is processed in an eco-friendly manner. The result is a very thin light brown paper that burns extra slow and extra clean. It uses proprietary crisscross run-preventing watermark. It is a clean tasting smoke that is best described as natural, light and pure. Raw Papers are naturally made in Alcoy Spain, the birthplace of rolling papers (circa 1550). Smokers can sense the authenticity of RAW and are drawn to its unique natural brown hue. RAW uses a pure natural organic Acacia gum that is hand-harvested in the Ethiopia/Senegal region from Acacia trees. The process is similar to what's used for maple syrup. We work with our ground partners to build communities and ensure our workers are treated fairly. We have given back more than anyone we know and saved and improved tens of thousands of lives together. As mentioned above, our Acacia gum is known to naturally lower cholesterol and reduce appetite! It sounds wild and it's the RAW truth.

- 1 Pack = 300 Leaves
- This sale is for 4 packs
- Hemp Natural Gum
- Translucent Ultra Thin Rolling Paper
- All Natural, Additive-Free, 100% Vegan
- Size: 76mm x 44mm, Made In Spain
