About the product

Blazy Susan Perforated Filter Tips are here to make your rolling even easier, while supporting a worthy cause.

Blazy Susan rolling papers are perhaps the most eye-catching brand of rolling papers on the PureSativa shelves. Designed in Colorado and manufactured in France from premium quality wood pulp, Blazy Susan papers are easily identified by their distinctive pink coloration.

The pink colour is derived from a natural dye and was originally intended to be a temporary promotional colour to raise awareness for breast cancer charities. Following a mountain of positive feedback and support, Blazy Susan decided to keep the pink colour permanently.
