About the product

Take a little smoke break with the new Shorty Cones from Blazy Susan! These mini cones are 53mm – around half the size of our regular cones. Whether you just need a few hits to get your head straight, you want to try out a couple different strains individually, or want to give everyone their own personal joint at the party, the Shortys are just what you need! Take one on your next hike or walk around the park and treat yourself right.
