

KIDSMANIA WACKY SHARK 12CT/ DISPLAY

About the product

Sharks get a bad rap thanks to movies like Jaws, but that doesn't mean that you can't have fun with them, too, but, perhaps, only in the form of a novelty candy!

While sharks have never been known to be musical *, our Kidsmania Wacky Sharks are an exception to the rule as each shark plays an instrument such as cymbals, drums, and a maraca. The base of each dispenser is filled with yummy candy too!

Here's a fun fact - you have a 1 in an 11.5 million chance of encountering a shark in your life, and you have a greater chance of being hit by a meteor than being attacked by a shark. Still, you are guaranteed a good time if you purchase a box of Kidsmania Wacky Sharks!

- Net Weight 5.04 oz.
- 12 ct.
- Each box contains an assortment of Wacky Sharks in Blue, Pink, and Yellow
- The last picture features Jon Prince, President of CandyFavorites, with his children and nephew at the Pgh. Zoo SharkFest
