

## BENADRYL CHILDREN'S BUBBLEGUM 4OZ 1CT

### About the product

- 4-fluid ounces of Children's Benadryl Dye-Free Allergy Liquid Medicine in bubble gum flavor is specially formulated to provide temporary relief of allergy symptoms caused by hay fever and other upper respiratory allergies.

- This allergy medicine for kids contains 12.5 mg of diphenhydramine HCl (5 mL) dose, an antihistamine that works to help alleviate children's allergy symptoms so they can start feeling more like themselves.
- Antihistamine for kids is specially formulated to relieve allergy symptoms caused by hay fever and other upper respiratory allergies including runny nose, sneezing, itching of nose or throat, and itchy, watery eyes.
- Children's allergy liquid medicine is available in a tasty, kid-friendly bubble gum flavor and comes with a convenient dosing cup to help give your child's allergies a time out.

Give your child effective relief from common allergy symptoms with Children's Benadryl Dye-Free Allergy Liquid Medicine. Containing 12.5 milligrams of the antihistamine diphenhydramine HCl (5 mL), this liquid allergy medication for kids relieves symptoms due to upper respiratory allergies, including runny nose, sneezing, itchy nose, itchy throat, and itchy, watery eyes. Available in kid-friendly bubble gum flavor, this children's allergy relief syrup is both alcohol-and dye-free and is intended for children ages 6 to 11. Help alleviate your child's indoor and outdoor allergy symptoms with the brand moms turn to first when they first treat their children's upper respiratory allergies symptoms. Children's Benadryl Allergy Liquid Medicine is formulated to be free of dyes, alcohol, sugar, parabens, and high fructose corn syrup for effective allergy symptom relief.
