

WHITE RHINO BUBBLE V2 CARB CAP - WRCC03 20CT/ PACK

About the product

The second version of White Rhino's Bubble Carb Cap is a smaller version than the original. It eliminates the long tubes at the top and bottom of the cap and replaces it with a small air inlet at the top and a directional airflow tip at the bottom. The bubble design allows you to move the point in all directions in your banger to make sure you vaporize every last drop of your valuable concentrates.

- Bubble Carb Cap
- Directional Airflow
- Version 2 of White Rhino's Bubble Carb Cap
- Eliminates Waste and Maximizes Vaporization
- Works with Most Bangers
- White Rhino Decal
