

REACH FLOSS 55 YD WAX BLUE 1CT

About the product

Clean between teeth and under your gum line with Reach Unflavored Waxed Dental Floss. This unflavored floss is designed to slide easily and comfortably between teeth while it removes plaque and food particles for optimal oral hygiene when used after brushing. It is accepted by the American Dental Association (ADA) and is designed to clean between teeth and under the gum line. Flossing is part of a dentist-recommended oral care routine that is designed to remove plaque and help reduce tooth decay.

- Reach Unflavored Waxed Dental Floss to remove food particles and plaque from mouth.
- Cleans between teeth and under the gum line for optimal oral hygiene when used after brushing.
- This dental floss is waxed to easily and comfortably slide between teeth.
- Unflavored floss is great for everyday use.
- Removes plaque and food particles for a cleaner mouth.
- This floss is accepted by the American Dental Association (ADA).
- Part of a dentist-recommended oral care routine to remove plaque and help reduce tooth decay.
- Dental professionals recommend flossing regularly after brushing.

Directions:

- Flossing is easy with the proper technique: Wind an 18- inch piece of floss around your middle fingers, leaving about 4 inches of floss between them.
- Grasp floss firmly between thumb and index finger of each hand. Gently slide floss between teeth, using a slow sawing motion to slip between tight teeth.
- Move floss up and down against tooth to clean both above and below the gum line, curving the floss around the tooth for best results.
- Repeat cleaning procedure for each tooth. Each few teeth, move to a clean piece of floss by unwinding floss from one finger and rewinding it onto the other finger.
