The LeakGUARD core locks in leaks for long-lasting protection. Plus, OdorLOCK helps prevent unwanted odors to help you feel fresh and clean throughout your day! Did you know that 50% of people with periods are wearing the wrong size pad? Do not sacrifice your sleep during your period, instead, wear a larger size pad at night to catch your period flow when you are laying down. Always Ultra Thin Overnight Pads have 45% more back coverage than our size 1 pad, so you can rest easy. All our Ultra Thin feminine hygiene pads have our 3x Protection System and come in a range of period pad sizes from 1 to 5 to fit your flow and size perfectly. If you have a light flow or need a teen-sized pad, then we would recommend using our Always Ultra Thin size 1 to 3.
