

KIEF COIN HERB SEPARATOR KKCNO1 1CT

KeifCoin is a small, circular piece of metal that is designed to be used in an herb grinder. When placed in a standard multi-compartment grinder, the Keif Coin helps to break down the keif (a type of trichome-rich resin) from marijuana buds into a finer, more usable form. This allows users to get the most out of their marijuana and enjoy a smoother, more consistent smoking experience. Whether you're a medical marijuana patient or a recreational user, the KeifCoin is a useful tool to have in your cannabis accessory collection.
