

BLAZY SUSAN KING PINK CONE 50CT/ JAR

About the product

Blazy Susan King Size Pre-Rolled Cones 50ct Jar is an excellent addition to any user's smoke kit who primarily smokes joints! Whether users choose Unbleached, Pink, or Purple cones from Blazy, they can rest assured that they'll have a premium smoking experience. True herb connoisseurs know that the smoking experience starts with the rolling papers used.

Some papers tear too easily, some taste of chemicals, and some burn too quickly. This can easily ruin the user's experience; Blazy understands this and sources only the finest ingredients to create their rolling papers. Rolling papers shouldn't affect the taste of your smoke or compromise your health with harmful chemicals.

They also believe in offering a variety of smoking options to spice up the user's smoking routine. This is why they offer three options of king-size pre-rolled cones. Blazy Susan King Size Cones are carefully packed into a plastic jar for protection.

Each jar contains 50 of their fan-favorite king-size cones. Like their other products, these pre-rolled cones utilize their world-famous vegan and non-GMO paper in an ultra-thin style. An ultra-thin style paper ensures users experience smooth hits without tasting the paper itself. Herb connoisseurs love this as they get a genuine and authentic flavor from their flower choice.
