

OLD SPICE DEO STICK 1.7 OZ / 50 ML - ROCK - 1CT

About the product

- Old Spice Rock With Charcoal Antiperspirant & Deodorant Stick 50ml protects your body against body odor and excessive sweating for up to 48 hours.
- So powerful it could stop a river! Although it is just a figure of speech, the truth is that this refreshing stick increases personal comfort and gives you the perfect confidence boost.
- In fact, its deeply effective and long-lasting action suits all skin types and allows you to experience an unforgettable fragrance. All in all, this option tends to captivate those around you, reviving the spirit.
- Also, since you sweat less, you're likely to do all sorts of physical activities without much concern. Although the formula is extremely strong, it also dries quickly, which allows for easy application.
- Finally, the formula includes Aluminum Zirconium Trichlorohydrate Gly, a blend that prevents sweat from escaping from the body.
- Therefore, when applied to the skin, contact with sweat raises the pH, causing the complex to precipitate and clog the gland opening.
