

OOZE AFTER HOURS DESIGNER MYLAR BAGS - 1oz - 10pk

About the product

If there's one thing Ooze products are not, it's boring! These Designer Series mylar bags are no exception. The majority of the mylar bags available are plain, or just have a logo plastered on the front. Ooze takes it up a notch and combines the smell proof, child safe technology of these super durable bags with some seriously cool designs.

The After Hours design is a dramatic scene of a city being taken over by monsters. A pink ombre sunset is in the background with a pink monster climbing a building and grabbing a helicopter out of the air.

Features:

- Easy to open seal closure
- Airtight seal
- Smell proof
- Strong and durable

Keep your herbs safe, fresh and stored away in a colourful and fully illustrated little package!
