

SCORCH TORCH 45DEG NOZZEL W/ SEE THROUGH TANK - STDS194 9CT/ DISPLAY

About the product

The Scorch Torch 45° Nozzle with See-Through Tank – STDS194 combines functionality with smart design. Featuring a 45-degree angled nozzle for precision and control, this torch is perfect for lighting cigars, culinary tasks, and DIY projects. The transparent fuel tank allows you to monitor butane levels at a glance, so you're never caught off guard. Built for reliability with a wind-resistant flame and ergonomic design, this torch is both practical and stylish.

Key Features:

- 45° angled nozzle for targeted flame control
- See-through fuel tank to easily check butane levels
- Wind-resistant jet flame for consistent ignition
- Refillable butane system (butane not included)
- Ergonomic, easy-to-use design
- Includes 9 torches per display – great for resale or personal use

A powerful, user-friendly torch lighter designed for visibility, precision, and dependable performance.
