

SCORCH TORCH W/ FLAME LOCK & 60DEG SWIVEL NOZZLE - STDS204 9CT/ DISPLAY

About the product

The Scorch Torch with Flame Lock & 60° Swivel Nozzle – STDS204 delivers top-tier functionality with advanced control features. Designed with a 60-degree swivel nozzle, this torch allows precise flame direction, making it ideal for cigars, culinary use, crafts, and more. The integrated flame lock enables continuous hands-free operation, while the wind-resistant jet flame ensures reliable ignition in any environment. Built with a refillable butane system and ergonomic design, it combines power, safety, and convenience in one sleek tool.

Key Features:

- 60° swivel nozzle for directional flame control
- Built-in flame lock for hands-free use
- Wind-resistant jet flame for consistent ignition
- Refillable butane system (butane not included)
- Ergonomic, durable design for everyday use
- Includes 9 torches per display – perfect for personal use or retail

A versatile and user-friendly torch lighter built for precision, comfort, and lasting performance.
