About the product

- Convenient
- High Quality

- Long Lasting
- Removes Smoke
- Eliminates Odor
- Travel Caps Included
- Reduces Second Hand Smoke

From our experience at THC, we've found that the "Large" (aka "Original") size of SmokeBuddy is the all-around best and easy choice for most uses/people, providing a combination of compact portability with best function. The "Small/Junior" is great, don't get us wrong - much more pocketable - but it is harder to blow through while the "Large" doesn't feel restricting at all when you blow into it. The "Mega" is pretty huge. If you're trying to choose between sizes, we generally recommend the "Large".
