

BUGLER PAPER 24 - 115CT

About the product

The Bugler brand was introduced in the United States in 1932 by Lane Limited. Recent surveys rate Bugler as the #2 selling brand of rolling tobacco in the United States. It is the most popular tobacco in American prisons and competes heavily with the TOP brand. Bugler is unique from its competition because it uses a premium "Turkish and domestic blend" of tobaccos. In the past, Bugler used thick rolling papers, however today they utilize a new, thinner paper that is interleaved. Try some of these traditional rolling papers today!
