

ELEMENTS ULTRA KING SIZE CIGARETTE ROLLING PAPERS 50CT/PACK

About the product

• Elements rolling papers are made with pure rice paper. No chemicals, no pulp, and no mess. A thin line of Acacia gum is added to the rolling paper. The rolling papers burn completely clean except for a tiny line of residue from the Acacia gum caramelizing.

- If you're looking for a very clean and very slow burning rolling paper, then look no further. Elements is it.
- Paper features Rolling Supreme's patented run-preventing watermark system with cross-weave patterning and vertical hard-stop lines, to keep your smokes burning slowly and evenly, every time.
