

RAW CONE 98 SPECIAL 20/ PACK

About the product

Raw Natural 98mm/20mm Cones - Also known as "The 98 Special". These cones are designed to be smaller for businesses or individuals that need to have small pre-rolls. They are neatly placed with 20 pre-rolled cones per pack and are ready to be filled. The cone shape lets more tobacco burn when first lit and less as you smoke it down. This means your first puff will taste the same as your last puff. Each pack comes with a RAW funnel to make filling the cones a breeze.
