

RAW CONE LEAN 110MM 20 CONE/PACK 12CT/PACK

About the product

These RAW Lean pre-rolled cones are 109mm with a 40mm tip. These pre-rolled cigarette cones are made from the same quality RAW unbleached natural rolling paper that you've come to love. The RAW pre-rolled cones save you time versus rolling your own cone which means you will be lighting up in no time. The cone shape lets more tobacco burn when first lit and less as you smoke it down. This means your first puff will taste the same as your last puff.
