

CHROMIUM CRUSHER 1.6" GRC6001-40mm

About the product

The Chromium Crusher is a premium grinder at an affordable price. This reliable grinding device lends its widespread recognition to its superior zinc alloy construction. Unlike the over-priced, toxic aluminum grinders available today, the Chromium Crusher is the only grinder in its class that is primarily made from zinc. This exclusive combination of materials selection and machining process makes the Chromium Crusher stronger and more durable than its competition. The Chromium Crusher will be the most inexpensive, premium grinder you'll ever own, and it is confidently backed by a limited lifetime warranty.
