CHROMIUM CRUSHER 1.6 VORTEX-4PART GRC6002-40mm

About the product

Chromium Crusher grinders have earned its widespread recognition through their superior design and reliable construction. The Chromium Crusher is the only grinder in its class that offers its customers both materials in heavy duty zinc and precisely surfaced CNC aluminum. Unlike other over-priced, sub-standard grinders on the market, the Chromium Crusher manufacturing process ensures that their grinders are made from stronger and more durable materials than their competition. We promise that the Chromium Crusher is the most economical, long lasting grinder you will ever own.
