King Palm offers the best hand-rolled natural leaves for those looking for the slowest and smoothest burning smoke there is. King Palm leaves are free of tobacco, flavors, additives, preservatives, and glue. The natural corn-husk filter will be one of the best filter tips you have ever used, it will help to make sure no loose herbs will fall through and will also eliminate oils from getting into your mouth. You can also bite or squeeze the tip for a tighter draw, which will result in a cooler smoke. We are confident that you will find these natural leaves to be better quality and much cleaner than the common wrapping papers on the market.

- Just Fill It - Tightly compress your choice of herbs, but without using extreme force. Use a semi-chunky grind for maximum flavor. Leaf wraps have a very mild earthy taste and do not alter the flavors of the herbs you are using.
- Super Slow Burning - Real Cordia Leaf Free of: Tobacco, Glue, Flavors, & Additives.
