

RAW CONNOISSEUR CLASSIC KING SLIM +TIPS CIGARETTE ROLLING PAPERS 24CT/PACK

About the product

- The original and best natural unrefined rolling paper. We created this category and we stay true to our natural roots. RAW rolling paper is made from just plants and contains none of the crazy additives that are found in some other rolling papers (even RAWnabees that claim to be "unbleached" or "natural" can contain chalk or dyes - yuck!)

- The ideal choice for smokers who prefer a longer smoke or enjoy hand-rolling their own cones. RAW Classic Connoisseur Kingsize Slim is an all-in-one solution that comes elegantly packaged with a rubber band holding it all together for easy portability and maximum organization. Smokers love it!
