

RAW TIPS UNREFINED PRE ROLLED 20CT/PACK

About the product

RAW Pre-Rolled Tips are natural and unrefined, giving you the most convenient way to quickly roll up on the go. They are constructed for perfect airflow and great filtration. No chemical bleaching or chlorine is used in these tips, so you can rest assured your smoke is safe. Don't mess around with ripping off business cards and magazines; the chemicals and ink can release dangerous toxins when heated from smoke.
