

SELF DEFENCE STUNT GUN YELLOW/ BLACK 1CT

About the product

- This is a taser like stunt gun that is designed for self defense against the attackers. It is shaped like a pistol, as you expect from a taser. However, it works like a different electroshock weapon.

- There are two prongs on this pistol, and you have to touch them to the body of the attacker in order to deliver an electrical shock.
- It comes with a rechargeable LED light and a trigger button. There is a safety pin as well which ensures the user safety while using it.
