

WHITE RHINO GLASS TRIANGLE SCREEN 400CT/ PACK

About the product

Using screens for your pipes is great for preventing unwanted debris flying into your mouth during your smoke sesh. However, it's important for the health of your glass not to use brass or metal screen in glass pieces. Instead, it's safer for your pipe to use a glass pipe screen. These triangle-shaped glass screens sit nicely in the bottom of your bowl and allows airflow to move past while keeping your herb in the bowl instead of your mouth.

- Universal Fit - Fits Most Pipes/Bowls
- Triangle Design
- Optimal Airflow
- Prevents from Inhaling Ash
- Recommended for Glass Pipes and Accessories
- High Quality Glass
