

RAW METAL TRAY SMALL - HYBRID 1CT

About the product

The new Hybrid RAW Rolling Tray is the newest tray to add to your RAWthentic Rolling tray collection. Pick your favorite or collect all 3 to mix it up.

This homage to your openness to the best of both strain types is on full display over a classic RAW small metal rolling tray. With curved edges to hold all your gear while you roll and coming in at 11 x 7 inches by 1 inch deep, any roller will have the surface needed to work yet this tray easily fits both on a lap or in the bag. RAW Rolling Papers roll up nice on this rolling tray but so do just about any other fine rolling papers.
