

## OCB PREMIUM KING SLIM CIGARETTE PAPER 1 CT

### About the product

OCB Premium rolling papers are a favorite among smokers worldwide. These flax fiber papers are ultra-thin and flexible, for unmatched ease of rolling. They're so thin that they're basically transparent when you hold them up to light! These papers burn slowly and evenly, and thanks to the natural gumline these papers will never unroll on you when you're sealing them.
