

THREE KING CHARCOAL BIG 40MM 10CT/PACK

About the product

Holland-made Three Kings is the leading premium brand that is internationally recognized in the incense world for its consistent quality level and dependability. Three Kings Charcoal briquettes have been made in Holland by René Schönefeld Incense and Charcoal Manufacturing since 1936. Using only the best ingredients combined with the almost 80-year old production techniques, Three Kings charcoal briquettes ignite easily, are odorless and have a smooth, long and even burn. Three Kings charcoal is internationally recognized for its consistent quality and dependability. Three Kings Charcoal is available as quick lighting charcoal briquettes. Each briquette ignites easily and quickly by holding a simple, small-flamed lighter to it. Due to the strict selection method and high quality demands of the raw material, as well as the 50-year old, perfected production techniques these briquettes hold no flavor of their own, and have a smooth, long and even burn. Three Kings Charcoal has since it was first produced been used for burning bakhoor and incense. Three Kings charcoals are internationally recognized as the best quick lighting charcoal available on the market. The disc-shaped briquettes are available in two sizes- 33mm and 40mm.
