

LIGHTER LEASH 420 SERIES JAR 30CT/PACK

About the product

Lighters are sneaky little objects. All too often just when we think we have them for good, they slip out of our pockets and into couch cushions, car seats, and other people's hands. If you want to keep your lighters to yourself, you've got to assert your ownership over your them and wrap 'em in a leash. Have you ever felt what it's like to use a lighter so long that the fluid runs out? We have. And it feels great.
