

RAW NATURAL BAMBOO CIGARETTE ROLLING MAT 24CT/PACK

About the product

- This is another old-school RAW creation. RAW Rolling Paper Mats are made of Natural Bamboo and are really easy to use to get the perfect roll. To roll, all you have to do is place a RAW paper with the gummed edge up, with the bottom edge about 10 straws from the bottom.

- Distribute tobacco over the first 10 exposed straws. Moisten gummed edge and fold bottom of roller over tobacco (just the tobacco not the paper), press and roll the RAW Bamboo mat, bottom to top.
